

MTL85R Post Hole Borer

(Power Head and Auger pictured. Auger sold separately.)

- ✓ Two man operated borer for larger holes
- ✓ Fitted with foldable handles for easy transport and an automatic cutout that stops the engine should there be loss of control
- ✓ A handy lever allows user to shift from forward drive through idle to reverse in swift succession, allowing easy removal of bit from the soil
- ✓ Diaphragm carburetor allows the machine to operate in any position without leakage of fuel
- ✓ Quick-fit pinned spigot-socket coupler for swift attachment and replacement of Auger
