

## TORO PROSTRIPE 560

Designed to provide a precise cut and clean striped finish the TORO ProStripe® leaves your turf looking at its best. This compact and maneuverable mower features a two-piece ribbed roller design to leave a crisp stripe, the new MatchCut™ technology enables precision setting of the height of cut to make post-game cleanup a breeze.

Grass is lifted, cut, and cleanly collected as a result of improved airflow created by a unique blade, grass bag and deck design. And the large, 80 litre high-capacity grass bag reduces downtime emptying the bag. Operator comfort and productivity come together with the ergonomic handlebar and Blade Brake Clutch transmission system that make the mower both comfortable and easy to use.

- Commercial-grade
- Kawasaki FJ180V KAI 4-cycle engine
- Two-piece ribbed roller
- MatchCut™ technology
- Heavy duty cast aluminium deck
- Large 80 litre capacity grass-bag (reduced downtime)
- 3-Speed transmission
- Blade Brake Clutch transmission system.
