

TORO[®]

TORO MULTIPRO 1750

An industry first! This unique pump produces up to twice the flow to simultaneously achieve higher spray volumes and aggressive agitation needs.

Every facet of the Multi Pro 1750 is designed to give the operator unrivaled and intuitive control of the vehicle and sprayer control system. The all-new vehicle design significantly improves performance, durability and operator comfort.

The Multi Pro spray system delivers unsurpassed spray accuracy and precision, and the new Quick Find Console[®] considerably improves the operator interface with the sprayer controls.

Every aspect of the spray system has been engineered to deliver unsurpassed spray accuracy, aggressive agitation and faster response time. Consistently delivers desired spray rates in even the most demanding environments

Features:

- QuickFind™ Sprayer Operator Console
- 662 L (145 gal) Tank with 6 Diaphragm Pump
- Ground Drive Proportional Pumping System
- Compact and Maneuverable With Low Turf PSI

Specifications:
