All-season comfort with heat and air conditioning. (4010-D and 4110-D).

EASY MAINTENANCE

Quick and easy access to all major service areas.

AIR-RIDE SUSPENSION SEAT

All-day operator comfort for greater productivity.

SMART COOL®

Automatically reverses cooling fan to blow off radiator screen chaff to help prevent overheating.

SMART POWER®

Automatically adjusts ground speed when encountering heavy cutting conditions, providing a consistent quality of cut.

DURABILITY

Heavy-duty, 7-gauge steel decks with bullnose bumpers and the industry's toughest spindle assembly for extended product life.

HybridDrive™ CUTTING DECKS

Works in conjunction with the SmartPower® system, providing optimal power to the cutting blades.

UNMATCHED POWER

Yanmar® 55 hp (41 kW) turbo-charged diesel engines provide ample power to mow in the toughest conditions.

VARIABLE CUTTING WIDTHS

Versatility in both wide area and trim mowing applications, depending on decks operating. And the ability to achieve a "zero" uncut circle, leaving no uncut grass in turns.

GROUNDMASTER® 4000-D/4010-D

A highly productive deck design allowing wide area mowing or precise trimming.

The three-deck design of the Groundsmaster 4000-D and 4010-D provides superior ground-following ability for excellent quality of cut results. Additionally, the incredible productivity that comes with varying the cutting width, from 11' to 8' to 5' on-the-fly, along with nimble, zero uncut circle capability, allows maintaining diverse landscapes from tight trim areas to wide open fields all with one machine.

Groundsmaster 4000-D

Groundsmaster 4010-D

» PRODUCTIVITY IN UNEVEN TERRAIN

- The parallel hydraulic system gives superior traction, making it much easier to trim around an object on a hillside without scuffing the turf, in forward or reverse.

» PRODUCTIVITY AT EVERY TURN

- Incredible maneuverability that accomplishes a "zero" uncut circle, allowing the operator to cut in a back and forth pattern with no uncut grass.

GROUNDMASTER® 4100-D/4110-D

The Groundmaster 4100-D & 4110-D series feature an all out-front deck design.

The 10.3' (3.15 m) continuous deck gives operators immense visibility and control over the mowing process.

Not only is the 4100 series good for wide-open areas, it also allows for excellent trimming under bushes and trees while keeping the operator's eyes looking forward.

Groundmaster 4110-D

Groundmaster 4100-D has a 10.3' (3.15 m) overall width of cut. Center deck section is 4.5' (1.37 m) with two 3.08' (.9 m) wings and a 7.4' (2.26 m) width of cut with one wing up.
